Skills

Muhafud Farah, a quality and technical support specialist, excels in product quality assurance and system troubleshooting. Studying computer science at Carleton University, he blends academic insights with practical experience in compliance and user support, showcasing strong decision-making and technical skills.

Experience

Aerotek (Honeywell Intelligrated) Technician

06/2021 to 02/2022 - Amazon , Barrhaven

As a quality technician at Honeywell Integrated for Aerotek, I ensure product quality by developing control plans, inspecting materials and products, and implementing improvement strategies. My focus on compliance, detail, and continuous enhancement supports high manufacturing standards and organizational goals.

Rona+ Customer Service/Paint Associate

06/2023 to 11/2023 - West Hunt Club, Nepean.

As the face of friendly service and paint expertise at Rona+. Whether guiding customers on paint choices or maintaining the paint department, I enhance the shopping experience with my knowledge and positive approach. .

Education

Carleton University / Bachelor of Computer Science

09/2022 - 04/2026, Ottawa, Ontario

I am pursuing a Bachelor of Computer Science at Carleton University from September 2022 to April 2026 in Ottawa, Ontario. During my studies, I am actively involved in university clubs, particularly the Carleton Muslim Student Association and the Carleton University Somali Student Association. This involvement showcases my engagement with the campus community and interest in cultural and social activities beyond my academic pursuits.
